When the Head Centre gives his consent, we shall see the Fenian flag flying from the top of the American soil the last vestige of the tyranny which, ninety years ago, the thirteen colonies tore from their bloody and, aided by our Free Press, the American people have made the emblem of an independent sovereignty or the starry flag of that nation which is the last hope of freedom, republicanism and justice.

SEIZURE OF ARMS.

That the Fenians have been depositing arms at various points along the border have evidence time and again. The following telegram dated Oswego, April 23 is confirmatory of that evidence:—"The

well to point out the following first place, the General Order pub-

Canada Gazette, and dated April 12, 1960, distinctly that all companies of Volunteers must be prepared to provide their own uniforms and be prepared for immediate service, if required. All the Volunteers are under the obligation of observing the regulations and penalties imposed by the Militia Act, upon two days in each week on which they report for duty. The Minister of National Defence, Victoria, says that no Volunteer can claim exemption, or can be discharged, when called for service. With regard to absence from duty, the Article 10 of the Regulations may be tried for desertion, without reference to the time during which he may have been absent. The Minister of National Defence says that desert the Queen's service, or in the words of the Statute itself, Any non-commissioned soldier or private who is absent from his duty without leave, or who is absent from his duty without leave, or who is absent from his duty without leave, shall be liable to be punished with death or other punishment as shall be determined by general Court-martial. The Minister of National Defence says that the punishment of death is a punishment which is not imposed upon a Volunteer who is absent from his duty without leave, in the eyes of the Militia Act, as much a deserter as if he had been in the regular army.

"this city, yesterday morning, at 3 o'clock." "They have been deposited at Fort Ontario." "Further search for arms is in progress." "The Fama are greatly excited by the seizure."

RUMOR AT FRESCOTT.
It is reported upon good authority "the Mayor of Ogdenburg arrived in this city on Thursday night, and informed the authorities that the Fama were on their way to the effect that within a few months thousands of Fenians would come to Ogdenburg en route to Canada." "Having believed this information perfectly reliable, the Mayor of our sister. And the Fenians are now on their way to Canada, peace personally with the Canadian authorities on the subject."

COMING TO BELLEVILLE.
Our brave Volunteers will shortly powder, if there is any truth in the rumor.

It is only a few days since a Vol

ment, with hard labour, for this very reason, is given in page 816 of the *Manual of Military Law*. It is the duty of every Volunteer to attend the muster, and if he fails to do so, he is liable to be punished. If a Volunteer who neglects to attend the muster, when required, shall be deemed to be absent without leave, and if he is absent on such an occasion for more than three days, he is liable to be punished. The business men of the country are often called upon to attend the muster at an especially inconvenient hour of the day. Whether the government is acting wisely in requiring the Volunteers to attend the muster at such an hour is a matter for the option in the matter. They have been so for many years, and it is not for the least-General Commanding the Volunteers to question the wisdom of the drill in question, much less to question the wisdom of the government in requiring the Volunteers to attend the muster at such an hour. The safety of the country that every effort is made to render the Volunteers to attend the muster at such an hour. The Volunteers, and the only way to be done by or by practice.

The punishment incurred by any Volunteer who fails to attend the muster, shall induce, aid, or assist any man to desert, is imprudent in the common

any period not exceeding six months without hard labor, as provided in section 10 of the Criminal Code.

The Rectory Question

There is a good deal of excitement town to-day. A Fenian, dressed in uniform, was prevented from crossing the bridge to St. Stephens, N. B., owing to regulations. He pulled out a pistol and threatened to shoot the guard. He was arrested by the U. S. marshal.

LATEST FROM EASTPORT.
The Globe's correspondent at Eastport under date April 25th, telegraphs as follows: "Killian and Roberts and fifty Fenians arrived here by the Portland boat to-day. Killian says he fully expects an insurrection in New Brunswick, and is confident."

About three hundred and fifty Fenians are here altogether.
The fishing season opens early this month, when the Fenians expect to join the local fishermen in the Bay of Fundy. As many as three hundred fishing

Rector, who came to this cou-

But it is known that the City, in creating the first declaration is, that the Rectory is created for the spiritual welfare of the inhabitants of a certain Town and then for the support of a Protestant clergyman, we are astonished to think that the clergyman should refuse to accept the services of the ministers of the junior churches without giving them any remuneration, and we are astonished still to think that the law should provide no redress for such a grievance.

WEDNESDAY, APRIL 25.

PRESENT.—His Worship the Mayor, the Billa Flister, and Messrs. Brown, Clarke, W. Henderson, L. H. Henderson, G. E. Le Vaillant, Le Vaillant, the Schallal, and Arthur and Kennedy.

Minutes of last meeting read and approved. Some correspondence, the Schallal's report, and the Assessor's Report, were received and referred to the respective Committees.

A letter was read from the Chairman of the Board of Common School Trustees making a requisition for \$1400, to pay the salaries of the teachers of the Common Schools. —*Referred to Finance Committee.*

The Rector of Toronto, no doubt alarmed of such things, met last year, Archbishop and the other Bishops, at the residence of Hon. Mr. Currie's Bill for the sale of Rectories, which was then before the Legislative Assembly, a clause should be introduced providing that after the death of the present incumbents, the Rector's salary should be £1,000; the Vicar's, £500; the Town, £300; and in Villages or Parishes, £400; and that the surplus be divided among the junior clergy of the Parish. This is only fair and reasonable, and no doubt will meet the approval of the Legislature. It is a most important measure, and one, who has thought

The Council went into Committee of the Whole on the subject of the By-Laws of the Board of Health and read and passed. Dr. Brown, Horton and the other members were appointed members of the Board. Mr. Leveson's by-law for raising by the means of delinquents, was read and Dr. Brown, Horton and the other members of the Board. The first to the fourth were adopted. Upon the fifth clause which was a resolution, there was considerable discussion. The principle was opposed by Messrs. Brown and Horton, but the other members, upon their arguments, contended that the first tried both systems, and found the latter to be the best. The resolution was preferred. ST. JOHN'S CHURCH, PLYMOUTH.

A Petition to the Legislature from the Vestry of St. Paul's Church, Kingston, was laid before the House of Representatives on the 12th inst. The Vestry had the honor to lay before the Legislature the report of the Finance Committee, and the regulation of the stipends of the clergy in this State. The report was read by William E. Rogers, Esq., seconded by Alfred Hooker, Esq., and resolved: "That this Vestry concur in the report of the Finance Committee, but no reference to the Legislative Assembly in relation to the apportioning of the money, and the report of the Finance Committee, and the resolution to the Churchwardens of St. Paul's Church, Kingston."
